ALIGNING UNIVERSITY PROGRAMS AND ACTIVITIES WITH COMMUNITY NEED

As an educator, we are guided by our students and all that we do as educators will never be without the context of society. We must anticipate and respond to the changing needs of the leaders, professionals, and entrepreneurs of tomorrow. Boise State University and its people are well positioned to make a difference in the lives of the learners and leaders of our state and nation because of the way we teach. Boise State University is not only the home of over 20,000 students, it is also deeply involved in the communities that surround us. Boise State University's programs and activities are directed towards this student success. Boise State University is a place where the student's learning is at the heart of all we do. Boise State University seeks to build the world of today and the world of tomorrow. Boise State University is a place where we are committed to educating and preparing students for lives of leadership and service.
